

Fabio Ignazio Romeo – Member of the Board of Directors

Graduated in Electronic Engineering from the Politecnico di Milano in 1979. He later obtained a Master of Science (M.S.) and a Doctor of Philosophy (PhD) in Electrical Engineering – Computer Aided Design & Optimization from the University of California in Berkeley, US.

He has served as Chief Strategy Officer and member of the Board of Directors of Prysmian Group S.p.A., a world leader in the production of cables for the energy, telecommunications and optical fibres sectors. In the last 20 years he has held several positions, first at Pirelli S.p.A. (Energy Cable sector) and later at Prysmian Group S.p.A., playing a central role in the team that managed Prysmian's acquisition of the Energy Cable sector of Pirelli S.p.A. in 2005, its listing in 2007, and its current configuration, resulting from the acquisitions of Draka and General Cable, completed respectively in 2011 and 2018.

Before that he spent 12 years at Magneti Marelli, mostly in the Electronic Systems division, until he became its Managing Director. And before that, he served as Technical Advisor to the Managing Director of Honeywell Information System.
