EPTA UK DONATES FREEZERS TO LOCAL CHURCH

UK: Commercial refrigeration equipment manufacturer Epta UK recently donated freezers to the local charity Fountains Church.

Fountains Church are a Christian Church based in the City Centre of Bradford, working with their team of volunteers to support the people living in the local area. One of the ways Fountains Church supports the local community is by **redistributing surplus food from supermarkets, local shops and wholesalers to local food banks**, but they also **prepare ready meals** at the Church and share them with those who are facing poverty.

Epta UK have just donated three freezers to Fountains Church, helping them keep the meals they prepare and the food they redistribute fresh for people who are in need of a substantial meal and a safe place to visit.

Annabel Rigby – Chef & Kitchen Manager at Fountains Church says

"We are very grateful for the freezers Epta have supplied, they are amazing & are so crucial in what we do here at Fountains. I have already started filling one up with frozen meals which will be going to Central Food Bank."

Epta UK say *"we are really pleased that we have been able to donate our freezers to Fountains Church and support them with the important work they do for our local community"*.
