

Epta opened renewing showroom in Hendaye

Date: 17 March 2023

Epta opens 2023 by renewing the look of its showroom in Hendaye. Modern and elegant, it is conceived to make the most of the Group's solutions that contribute to the Client's daily growth.

The showroom was inaugurated by Epta together with the mayor of Hendaye - Kotte Ecenarro - the MP Vincent Bru and all the employees.

The exhibition area features 50 refrigerator cabinets, belonging to different ranges branded Epta, in particular its Bonnet Névé brand.

The showroom is divided into the Univers Marché - for specialist shops - and into the Univers Libre-Service dedicated to Large Scale Retail Trade, from proximity stores to supermarkets. A place which welcomes Clients and Partners in a welcoming and friendly atmosphere, just a short distance from the production lines of its new solutions.

The space is also dedicated to hosting training courses for both internal resources and young people of the surrounding area, to promote their recruitment in the refrigeration world.

In this way, Epta has been encouraging training initiatives for many years. One such example is the Cantau EptaSchool 4.0 launched in 2019 in association with the Multi-purpose High School Cantau, Danfoss and SEPCO Association of installers-refrigeration technicians of Bayonne. A centre financed by the Regional Council of Nouvelle Aquitaine, which aims at becoming a point of reference for the commercial and industrial refrigeration chain.
