

Epta takes to the skies with air France – KLM, for more sustainable air TRANSPORT

2023-10-08

Epta takes to the skies to make air transport more sustainable, participating again in 2022 in the SAF programme - Sustainable Aviation Fuel – with a calculated loan to proportionally compensate CO2 emissions associated with the travel of group employees. This contribution has allowed Air France and KLM to procure 20 mT of sustainable aviation fuel in 2022.
