

## EPTA is official partner of the Trento economy festival

2024-05-14

13 May 2024

Epta participates as Official Partner in the Trento Economy Festival, promoted by the 24 ORE GROUP and Trentino Marketing on behalf of the Autonomous Province of Trento and in association with the Municipality and University of the City.

“QUO VADIS? I dilemmi del nostro tempo” is the theme selected this year for the prestigious event which is now in its 19th edition. It sets itself the goal of analysing in-depth the challenges dictated by a complex global scenario, proposing cutting-edge solutions and new interpretations.

Scheduled from 23 to 26 May, the Festival will focus on the great issues of our time, such as climate change, inflation and ecological transition, involving opinion leaders of national and international importance, in a dynamic and innovative calendar of meetings, events, talks and keynote speeches.

### QUO VADIS? MR. MARCO NOCIVELLI SPEAKS ON SUSTAINABLE DEVELOPMENT

One of the key figures of the economic world, Mr. Marco Nocivelli, President and CEO of Epta, will answer this question Quo Vadis and respond to the dilemmas of our time, according to the focus of the event, with a talk scheduled for the afternoon of 25 May.

As speaker within the Energy Observatory, Mr. Nocivelli will focus specifically on the enormous potential of green transition and sustainable innovation, not only for the future of commercial refrigeration but, with a wider and future-looking vision, for the entire sector of the Italian mechanical industry.

“To be one of the speakers at the Trento Economy Festival and speak on one of the most prestigious Italian economic stages makes me very proud” states Marco Nocivelli, President and CEO of Epta who concludes “My contribution at this important event, an opportunity for discussion and in-depth analysis, will address several crucial themes of the Nation for the future, not only industrial, presenting the best practices and Epta strategies for Sustainable Innovation as virtuous model of sustainable growth, in terms of financial and environmental performance”.
