RawFood Corner

Eurocryor, Misa and Iarp's RawFood Corner is created to host cooking demos. The fully-equipped kitchen becomes a mini-theatre, where the counter is the stage and chefs perform by preparing and explaining raw food recipes. The traditional EurocryorBistrot and Torre cabinets, Iarp negative temperature VIC 150 and EIS 45.3 cabinets, and the Misa KLM cold room, glazed and equipped with Epta Food Defence anti-bacterial system, are rolled into one.
